**SUPW CIRCULAR  
Classes VI- VIII**

03.04.2024

Dear Parents

Greetings of the day!

**“If education is based on socially useful productive work, it would be an instrument for personality development and social transformation.”**

**Socially Useful Productive Work (SUPW)** bridges the gap between life and education. It is considered as the ‘Third Dimension of Education’, and has been an integral part of our school curriculum. SUPW works towards providing an education that is holistic, meaningful and skill-oriented correlating knowledge with craft, and theory with practice.

The objective of SUPW activities is to allow our students to give expression to their co-curricular interests and aptitudes. As per the New Education Policy, 2020, these skill courses envision imparting the procedural knowledge and competencies to the students and help them develop their creative faculties and diverse abilities that instil a sense of usefulness and self-worth among students.

To fulfil this objective, our school offers a variety of skill-based and fun-filled activities. The list of activities is as follows:
