**Educational Visit to Museum of Illusion  
Class VIII**

Dear Parent

**"Tell me, and I will forget. Show me, and I may remember. Involve me, and I will understand."**

At Mayoor, educational tours are crucial component of the academic program because they give students the chance to learn outside of the classroom and get useful practical experience. In continuation with our endeavor to expose school students to a variety of learning experiences for their overall development, the school is organizing an educational trip to Museum of Illusion, New Delhi for the students of Class VIII on 22.4.24 (Monday)

The Museum of Illusion aims to educate the students about the science behind optical illusions and perceptual phenomena. By engaging with interactive exhibits and visual illusions, students will learn about the complexities of human perception, challenging their understanding of reality and fostering critical thinking skills in an entertaining and immersive environment.
